FACH-PAK manufactures and supplies the highest quality specialised insulated hygienic containers for food processing especially fish, meat and poultry.

FACH-PAK insulated containers are triple-walled monolithic constructions made of durable plastic, filled inside (between the walls) with foamed polyethylene (PE) or polyurethane (PUR). The entire internal space of the container is tightly filled with a given insulation.

The highest quality materials used in process of manufacturing are approved by National Institute of Public Health (PZH), Sanitary Inspectorate and FDA, allowing them to come into **direct contact with food without any risks.**

FACH-PAK insulated containers, thanks to their monolithic structure, are environmentally friendly and are fully recyclable. The lack of edges and smooth walls help maintain and promote hygiene. Their application is mainly dedicated to food processing, especially fish, meat and poultry.

FACH-PAK containers’ workmanship is based on formulas developed over the years by our dedicated research and development team.

PUR Insulation
polyurethane foam

APPLICATION

Used when thermal insulation is necessary, e.g. in places with limited access to refrigeration equipment or when there are extremely high or very low temperatures.

TYPE 70 PUR
750x485x390 mm

TYPE 100 PUR
805x530x425 mm

TYPE 310 PUR
915x715x710 mm

TYPE 380 PUR
950x750x750 mm

TYPE 460 PUR
1230x1030x580 mm

TYPE 600 PUR
1200x1000x750 mm

TYPE 605 PUR
1200x1000x760 mm

TYPE 620 PUR
1220x1010x750 mm

TYPE 630 PUR
1200x1000x785 mm

TYPE 650 PUR
1230x1030x750 mm

TYPE 660-3 PUR
1230x1030x750 mm

TYPE 1000 PUR
1470x1180x890 mm

PE Insulation
polyethylene foam

APPLICATION

Wherever above-standard strength, high load-bearing capacity of any load and increased thermal-insulation parameters are required.

TYPE 310 PE
915x715x710 mm

TYPE 380 PE
950x750x750 mm

TYPE 400 PE
1200x1000x570 mm

TYPE 460 PE
1230x1030x580 mm

TYPE 600 PE
1200x1000x750 mm

TYPE 605 PE
1200x1000x760 mm

TYPE 620 PE
1220x1010x750 mm

TYPE 630 PE
1200x1000x785 mm

TYPE 650 PE
1230x1030x750 mm

TYPE 660-3 PE
1230x1030x750 mm

TYPE 1000 PE
1470x1180x890 mm
