Product Description

To be installed only on rigid floors, available in LLDPE, are easy to assemble. Very resistant to acids, corrosion, bases, oils, as well as to extreme temperature (from -40°C up to +80°C), they don't produce bacteria, don't keep odors, are sterilizable, are easy to clean, isolate and allow a perfect evacuation of the water. They may be used in any kind of industry, including the chemical or food ones. Single unit: 600x400x20mm which is 0,24 m².
