

Freezer spacer

1200x800x50 Blue]

Product Summary

Article No.

FP-PN1208

Dimensions (mm)

1200 x 800 x 50 mm

Surface:

perforated

Max load

3000 kg

Weight:

2,96 kg

Material:

HDPE

Colour:

blue

Quotation only on request. For more info please contact our office at info@fach-pak.pl

Product Description

Due to its unique design ensuring maximum air penetration, along life span and easy handling.

+ Highly efficient

+ Sturdy and reusable – again and again

+ Easy to clean and nest

= **Economical, Efficient and Convenient** - Approved for food contact -

Manufactured in HDPE - resistant to most acids and chemicals - Designed for temperature sensitive applications - Can with stand temperatures between -50°C and +90°C. - Air circulates rapidly through the cavities of the spacer ensuring a faster and efficient freezing of the whole pallet load. - Maximum air penetration in Freezing and Tempering operations - Open profile design allows for easy cleaning - Nestable for space saving - 100% recyclable

Freezer spacers are available in two types: 1200x800 and 1200x1000mm. Standard colours are: blue and black other available only on request.
