

PRODUCT SPECIFICATION SHEET

Roll container **type FP NT-1 ADB 1600** 725x820x1890 mm, 5-sided

Technical data sheet:

base:	made entirely of steel or as a sandwich-type construction made of high-density polyethylene HDPE (fully re-cyclable), light blue (RAL 5012) - closed and smooth container's base structure (so-called "hygienic") for quick and easy cleaning base folds backwards thanks to a fitted precision spring mechanism high torsion resistance
castor set:	rim made of polyamide PA, tread made of elastic 2 fixed + 2 swivel castors (self-adjusting) with total brake wheel diameter - 125 mm
walls:	side panels' main frame made of round steel tube, diameter 22 mm, infilled with wire mesh 4 mm in diameter and 50x50 mm mesh. front wall fitted with a bolt lock with the possibility of attaching a padlock.

		length	width	height
5-sided variant: <i>steel roof, intermediate steel shelf</i>	external dimensions:	725 mm	820 mm	1890 mm
	internal dimensions:	670 mm	760 mm	1615 mm

		length	width	height
5-sided variant: <i>HDPE roof, intermediate steel shelf</i>	external dimensions:	725 mm	820 mm	1890 mm
	internal dimensions:	670 mm	760 mm	1600 mm

		length	width	height
5-sided variant: <i>HDPE roof, intermediate HDPE shelf</i>	external dimensions:	725 mm	820 mm	1890 mm
	internal dimensions:	670 mm	760 mm	1590 mm

load capacity:	up to 500 kg
surface finish:	zinc electro-plated Cr3 (blue)
temperature resistance:	-20°C to +80°C

Product description:

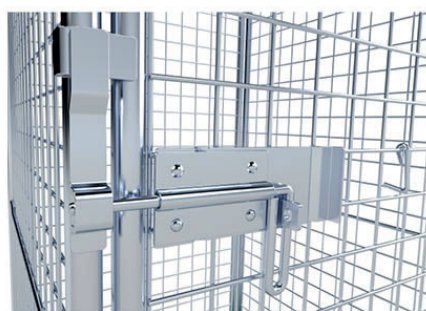

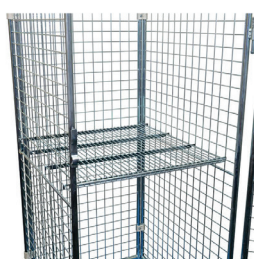

Thanks to their special features and exemplary ergonomics of use, our roller containers of the type **FP NT-1 ADB 1600** meet the increasing demands in many areas of application.

Thanks to the use of plastic folding shelves and a metal frame, our trolleys run extremely smoothly and quietly.

They can even be used in pedestrian areas or residential areas in the early morning hours, without causing any noise.

- stackable to save storage space
- low dead weight
- high load capacity
- easy to handle
- reduced noise emission compared to recommended target values
- reduced susceptibility to damage
- environmentally friendly (recyclable)
- attractive price-performance ratio

The container effectively protects the goods from unauthorised access thanks to the fitted bolt lock with the option of installing a padlock.

additional intermediate shelves can be installed - made of steel or HDPE (in 50 mm increments)

front wall fitted with a bolt lock with the possibility of attaching a padlock.

zinc electro-plated Cr3 (blue)
