boxlifter®

WORK SMART, NOT HARD!

EXPERIENCE

Boxlifter consists of people with many years of experience, experts in machine construction and welding. Each tipper is made from start to finish- from creating a machine design tailored to individual customer preferences, from the production and commissioning of the device to the workplace.

COMMUNICATION

Don't hesitate to contact us. We are ready to talk about your needs and offer appropriate solutions. We will also offer a meeting at your location, so we can understand your expectations and also take the appropriate measurements.

HIGH QUALITY PRODUCTS AND CUSTOMER SERVICE

Many companies have trusted us, both in Poland and abroad. Loyal customers come back to us for more tipplers, and we implement new projects.
