- stackable with or without lid
- design for easy washing and cleaning
- available in beige colour, other colours upon request
- long lasting UV-protection
- strong and robust corners allowing safe operating with crane's lifting hooks

### SHORT DESCRIPTION

Ice containers such as FACH-PAK Type 100 PUR are mainly used by smaller fishing vessels to store fresh or layered fish. They are used in the meat industry for pickling and storing chilled raw materials. They also work well when storage space is limited. The containers are equipped with an insulated lid.
